Graduate Software Developer

I am a self-taught software developer with technical expertise, problem-solving skills, and a passion for innovation. Thrives in collaborative environments, communicates effectively, and seeks continuous skill enhancement. Ready to make a meaningful impact in software development.

Skills

- | | |
|--|--|
| <ul style="list-style-type: none"> • Advance ASP .NET Framework and ASP .NET Core • Advance REST API • Advance MVC • Advance Entity Framework and EF Core • Advance C# • Intermediate JavaScript • Intermediate SOLID Design Principles | <ul style="list-style-type: none"> • Intermediate SQL Server • Intermediate SSMS • Intermediate Html • Intermediate TypeScript • Intermediate Angular • Intermediate DDD • Basic Git • Basic CSS • Basic TDD • Basic xUnit.net and NUnit |
|--|--|

Education

- January 2005 – June 2007: Associate Degree in Electronic Engineering, The University of Tuyserkan, Iran
- July 2008 – Dec 2010: Bachelor Degree in Electronic Engineering, The University of Tuyserkan, Iran
- Aug 2020 – Present: Enrolled in a membership program with Pluralsight. Focused on building expertise in open-source solutions and actively engaged in creating console applications and web projects from scratch.
- July 2023: Achieved a successful completion of the ASP.NET Core Web API assessment using C#, with a score of 84 out of 100.

Courses (Pluralsight)

- C#
- JavaScript
- Domain-driven design (DDD)
- SOLID Design Principles
- Object-Oriented Programming (OOP)
- Model, View, Controller architecture pattern (MVC)
- Building Web Applications with ASP.NET and ASP.NET Core MVC using EF Database First, Code First and EF Core Code First
- LINQ Entity Framework and EF Core
- Asynchronous Programming with C#

Development Experiences

I possess experience in customizing two open-source e-commerce platforms, namely nopCommerce and SimplCommerce.

Additionally, I have developed console application in Amazon AWS, utilizing its powerful capabilities for data reading and writing operations.

Tech stacks

.NET Developer, Web developer, C#, JavaScript, Programmer, Asp .NET, web Api, Azure Repos, Source Controller, Git, GitHub, MS Visual Studio, Visual Studio Code, Microsoft SQL Server, SSMS, ReSharper, Entity Framework, EF Core

Work Experiences

- March 2011 – March 2012: Served as an apprentice Electronic Engineer at Ooj Gostaran Elevator Company.
- April 2012 - June 2016: Worked as an Electronic Engineer at Ooj Gostaran Elevator Company in Iran, specializing in elevator manufacturing and design.
- July 2016 – Dec 2017: Voluntary services and piano performances for charity concerts in the UK
- January 2018 – August 2018: The Jacob's Bakery Ltd
- Sep 2018 – August 2020: B&M Distribution Center-The Vault
